

What does not kill you Does NOT always make you stronger

**You have the right to remain silent.
Anything you inhale may be used against you.
Your representatives voted to empower you with information
and protections. The governor took that away.**

If you are being poisoned at work by toxic chemicals, if your family works in the fields and has been poisoned by pesticides for years, he doesn't care, if you care about the toxics being brought into your communities or the poisons are in your own body –

DEMAND THE RIGHT TO KNOW AND BE HEARD
